Subject: Microsoft Settlement

To Whom It May Concern:

I have read the current proposed settlement with Microsoft and I disagree with it in its current state. While it does try to prevent Microsoft from continuing its anti-competitive practices, it does nothing to punish them for their past actions. The mere presence of a monopoly like Microsoft damages competition. Since any plans to break up the company seem to have been abandoned at least consider altering the settlement to help level the playing field between Microsoft and its competitors.

Sincerely,

Christopher Nebergall
